### **Blackwood's gives you the world's first vintage gin!**

The Blackwood's distillery in the beautiful Shetland Isles, far to the north of Scotland, will soon be producing the first single malt whiskey from this area. Until then, we'll have to be satisfied with their intriguing gins and vodkas. Blackwood's Limited Edition Vintage Dry Gin, a double gold winner at the World Spirits Awards 2005, is – according to the team that makes it – the closest you can get to the essence of 60-proof North Shetland in a bottle. Made from the purest water, gushing straight out of a mountain spring, its flavoured with hand-picked Shetland botanicals giving it a distinctive and delicate pale green hue. **Get it at Bottles and Bottles, Parkway Parade.**
